

MAINE Boat & Home SHOW

August 10-12

Gates open at 10:00 a.m. daily | No Pets

The show's 2018 theme, **Working the Coast**, reflects the fact that Maine's rugged coastline has long been a place where hard work and tradition meet constant change. This is true even more so today: our fisheries are evolving, our workboats are changing, and new industries and techniques such as digitally driven boatbuilding and aquaculture are emerging. This year's show showcases many of the companies and people who make up the working coast.
